Meeting at Foggs Hall Feb 5th 1891 of Saint Grange

the Installation that was to be held at Foggs Hall Jan 22d did not take place owing to the weather. The committee on arrangements had the installation take place at the regular meeting of the Grange at Foggs Hall Feb 5th Worthy Master Harvey called the meeting to order and Master Douglas of the State Grange installed the officers assisted by Sister Worthey. Owing to the disability of Assistant Steward brother Berry. Brother Worthey acted as his proxy. After the officers were installed Worthy Master Damon called upon Ex Master Harvey to address the meeting In an excellent speech he said he wanted the farmers made better that they should place the price on the product not the merchant who make the prices, he said the agr papers had placed the farmer in a prosperous manner thereby, other professions chose to bear them down on account of the sayings of the papers. But he said the Grange was to stop such proceedings and place the farmer in the front that the time has arrived that the farmer is to govern. The Grange is doing a work to lift the farmer to a higher level where the farmer is being educated to take a part in every matter pertaining to the public welfare. What the farmer wants to do is to combine and organise in the Grange, showing the value of membership, that the farmer was isolated and wanted to mix with numbers for his welfare. Bro Damon called on Master Douglas of the State Grange who said he unexpectedly came before a public assemblage as he expected a close session but his business was not public speaking he spoke of the order of its early existance the first to start was O H Kelley in 1866 who was appointed to go through the South to see their condition & report he found the south poor he formed an organization there with 7 others and called it a Grange, Master Douglas spoke of the organisation of subordinate Granges there and more organised in the North

the basis in their organization from they first started
to the time of the value of the Grange in buying
articles such as sewing machines &c, that the Grange
was instrumental in breaking up the patents of the
sewing machines she spoke of the social value of belonging
to the Grange, of the financial value. The fire insurance
they insured for one half from much was spent in matters
that were foreign to the public welfare that the Grange was
to remedy and what interest it was to the farmer to belong to the
Grange. Brother Damon called upon Miss Mary E Towne
who acted much to the occasion by her fine rendition
of a piece wherein the scene was laid of a woman
who applied for a divorce because her husband belonged
to so many secret societies, the audience show their high
appreciation by ~~frequent applause~~ ~~Applause~~. as she portrayed the different
societies to which he belonged. Rev Dr Biggs was called upon, he
mentioned that he once belonged to the Grange, what
changes had taken place in matters of Education
to which he place great weight; what value it was to
social intercourse, the pleasure of being a farmer, that
he spent his younger days on a farm in Ohio, that he has
interested in a farm. His class, has no independent as a
farmer, but the crops would grow when he is away. He should
go abroad more and cultivate the finer graces, this address
was on showing the shipping of produce and the laws of supply
and demand, ~~Bro~~ spoke of the value The Grange has, in a social
way, of knowing as well as in all matters that were of interest
to the farmer. Next meeting Feb 19th

No meeting June 18 for want of a quorum.

The strawberry festival held under the auspices of the Grange on June 19th was a success. Worthy Master Damon presided, he called upon Ex worthy Master Sherin to address those present, which he did, his remarks were interesting, he stated that the farmer had been in the back ground but now was coming to the front, that the Grange was beneficial in a social point of view. He enlarged on other matters pertaining to the welfare of the farmer. He was followed by Miss Mary Towne a member of the Grange who gave a fine recitation, the subject was a wife applying for a divorce in consequence of her husband belonging to so many secret societies. Miss Nellie Torrey followed reciting Farmer Jones Sermon, which was excellently done. The entertainment concluded by Miss Mary Damon reciting Farmer Jones Sermon which was also excellent. The three deserve much praise for their fine selections which added so much to the entertainment. Worthy Master Damon ~~treated~~ treated to refreshments such as Strawberries, ice cream & cake there in the house near by to which plenty bunch did retired to, Afterwards dancing ~~was indulged~~ indulged in both floors. The committee of arrangements are entitled much credit for the admirable program carried out under their auspicies.

Bro Crowing of the Executive Committee brought up the vote of the last meeting whereby the Executive Committee were instructed to report a resolution thanking Bro Sampson for the interest he had taken in the Grange The following Preamble & Resolution was read by the Secretary and ordered to be entered upon the records of this Grange. Whereas Satuit Grange has changed its place of meeting from Bro Sampsons, who was largely instrumental in forming the Grange and has shown so much interest in promoting the cause for which the Grange was formed, in being ready on all occasions in aiding it in its progress, always ready to give his consent to any measure that was advantageous to its prosperity, that we cannot let the occasion pass without some expression of gratitude to him, Therefore resolved that we tender to Bro Sampson our warmest thanks for the aid he has given us in the past, for his cordial support at all times to the prosperity of the Grange, and we shall always remember with pleasure, those pleasant gatherings at his place, and we wish him every success in the future as we remember his kindness so well in the past, A recess was declared, The Grange came to order. The Lecturer called up Bro Turner to give an account of the farming of his early days. Bro Turner said the farmer of those days worked on stone walls and cleared bushes. that the farming was entirely different; raised fur

enough for their own consumption. Worked more hours, 16 to 18 hours, but from early dawn till evening, wages in the shop was 15 cts a day. Poor hired men then, lower than now. The hired men of those days were better. She showed the difference in illustrations Labor was more plenty in those days, there was a better state of affairs. At the present time the cost of labor took too much of the production of the farm, that the stock of those days was poorer than now; lived on poorer food. Mentioned of the changes that had taken place in farming, gave us an idea of the process of lighting fires in those days with the flint & tinder also the manner of weighing hay. Bro Berry mentioned that at the present time there was not much farming carried on only around Boston. Men worked many hours, that a farmer must have many men to make a profit, that farming must be carried on with a knowledge of what it costs the same as in manufactories giving illustrations To make a success we must know the cost. Bro Robbins mentioned that manure & rain was what the farmer needed He spoke of the difficulty of entering a Grange late as he had had a little experience that evening. Bro Corning called upon Bro Foster asking him relative to the prices of meat in the 17th & Townes their cost why it was so high. Bro Foster mentioned the causes one was that only 2/3 of the people paid their meat bills at the expense of the other third, and the Rail Roads charged so much freight, he said that it would be better to have the old native cattle of our early days, well fed they would be better than the stock of the present time illustrating the difference between the calves & cows of those days and the present, that the farmer should raise event fat cattle that it would pay & we would have meat cheaper. Bro Corning spoke of the first of beef from the west in New Hampshire that the slaughter houses were abandoned & the farmer had gave up the raising of beef cattle. Bro Berry thought that the day was passed for beef & even raising, gave his views of the in the Pacific road & short paper on the Iron Crop Bro Turner differed from

Worthy Master introduced Bro Hersey to address the Grange

Bro Shersey stated that his discourse would be the basis relative to the farm. That certain meetings of the Grange should be to improve the manners of the farmer, to talk upon a subject that we are familiarly with, the importance of each one to know the best methods of growing crops that every Grange should know these methods, we come together to lift each other up, My subject is the ground work, we need to know how crops grow, we must study nature methods of growing crops we must study her starting point, Nature left to herself is slow to start ~~to start~~ her vegetations Bro Shersey illustrated his theme by producing a stone from a barren ledge how nature started her work, vegetation had started with no earth in its primitive state, Our stone walls are covered with moss, as time goes on it thickens, moss decays also as time goes on and is added until a plant has begun to grow, Moss of a different character was shown growing on sand, Mr Shersey said there was certain elements that these plants obtain, The moss has an ash which must come from the stone the question how it comes, The rock decomposing forms plant food in order to show it I must use terms, a plant to grow well must have a small part of Phosphoric acid coming from the decomposed rock in a slow manner. Besides this it must have potash from the rock, Nitrogen comes from passing materials. The moss from the sand grew faster as the sand was fine from decomposed rock where as coarse sand it would have taken years to have grown. We have the soil to deal with besides the manure, we want to be more acquainted with the soils to keep our lands up, Nature is all the time at work making plant food we want a knowledge of the different soils, giving illustrations of various soils mentioning the Dike meadows one that was lasting in producing. Trees and the soil in decaying vegetation in their exhalation. From the Carbon of the air, we must assist Nature to get great crops. That our methods are haphazard we do not know in what direction either. Take the Manufacturer. We often buy what our lands do not need

one must be familiar with his soil and in purchasing fertilizers if he does not he loses he may buy what he does not want Bro Beery said that a complete manure was stable manure The question was asked if for a term of years stable manure would answer for potatoes. Bro Sheresey said that a rotation of crops was necessary when stable manure is used potatoes wanted nitrogen more than potash & phosphoric acid. Bro Beery thought different that stable manure gave a plenty of nitrogen Bro Sheresey gave illustrations of raising potatoes in succession which he could not do with stable manure that after using chemicals for some time we must have something to loose the soil which can be done with clover that we must learn the condition of the soil, that one farmer could grow no crop in succession but corn, that rotation had to be done. Bro Turner asked as vegetation was so slow on sandy soil that leeches stones grew so. Bro Sheresey brought his attention to the long roots of the birch as being the cause of their rapid growth Bro Crossley gave an account of Gen Smith having some corn from Egypt that had lain for centuries there which germinated which brought out some discussion of the origin of corn the country where it originated Bro Sheresey spoke of buying too much of a certain element by not knowing the wants of the soil. Bro Beery did not believe in purchasing any one element for the soil. Bro Sheresey to illustrate his views spoke of a dealer in silk cotton and woolen cloths who would keep his stock good by not being out of any one of these articles. Bro Turner spoke of Bro Sheresey's able an interesting address and made a motion to vote him thanks but Bro Sheresey objected so the matter was lost. The Worthy Master took a resume of the meeting and summed up that in using chemicals if one used too much, citing Nitrogen, as an example it would be detrimental to the crop and also to the soil The Grange closed at 10,30.

Meeting of Natick Grange Oct 6th 1892 at Briggs Hall 1 P.M.

Grange opened in the usual form at 2.15 P.M. 20 members present. Worthy Master Briggs in the chair. The following members acted in place of absent officers. Sister Brooks as Ceres; Sister Sexton as Lady Assistant Steward; Bro Damon as Steward; Bro Clapp as Assistant Steward, Bro Sexton as Gate Keeper; Minutes of last meeting read and with one correction approved. The following candidates who had petitioned for membership were favorably balloted upon for initiation Herbert F Turner, Augusta M Smith & Edward L Berry; Rachael A Hatch who petitioned for membership was rejected. The Sec was instructed to notify Mr Sheesey when Deputy Bro Eldridge Cushman was to meet the Grange for inspection. The Secretary was instructed to pay the State Grange the quarterly dues. The question debatable for the evening was, which is most profitable the Raising of pork or poultry. The Lecturer call up Bro Clapp who spoke in favor of pork raising stating his reasons among which was that pork was a good food when made on grain milk and vegetables but not when made on milk was well adapted for healthy people but not for sickly ones. one bushel of grain made 10 lbs of pork. Bro Turner understood the question which was the most profitable to keep 1 pig or 12 hens, said he felt embarrassed as he had no great experience in raising pork or poultry ceiling his case like the old carpenter when questioned what part of the work he like said the circular part. in pork or poultry he he had forgot was a carpenter. Bro Briggs thought skim milk was largely experimental in the 1st 200 lbs growth, but not so much gain as with grain, that there was a difference in the laying qualities of hens that hens had a tendency to lay better when eggs were 10 cts per doz than at present and the right breed you could make from 1 to 2 dollars on a hen per year. Bro Sexton kept hens, 3 hens weighed 30 lbs in season & out of the

big fat breed of hogs as you would hens. Worthy Master related that Bill Nye said in relation to his use for them as follows. The overseer in speaking, said, is pork raising profitable, thought it was if you do it in a judicious manner on a vegetable farm there is much waste that can be used with a little grain had 5 pigs that did not cost him 5 dollars, near the city some keep 500 hogs on city swill which are fattened easy but not very good to eat. Bro Tovey was called upon to speak in favor of poultry but desired to be excused. Sister Bushong read a practical paper on Poultry. said she was a new member to be called upon that her life had been spent in the city was much interested in hens, describing the habits of the Setting hen the only method to stop the setting was the at Farm June 1st 1892 to Apr 1st old hens alone little June 1892 had 23 pullets & 12 roosters. Her profits were $1.52 Believes that if taken care of 3 dollars gain on a hen a year. Sister Brooks being called upon asked to be excused. Referring to Bro Brook as who believing more in poultry than the keeping of pig was close to poultry as to profit. Sister Sexton desired to be excused and referred to Bro Sexton as authority in the matter keeping hens he said. The Hebrews were forbidden pork. the early Barbarians, The Gauls raised hogs. The Hindoos raised goats hogs and probably the cow. The Isles of the Ocean more fenced hogs. The hens from time immemorial unexpected for him to speak as a husband in the keeping of the hens had discussions at home relative to the matter, that he found grain, his wife the eggs, showing the disturbing nature of hens that they were more partial to his onion field than his wifes flower garden. Bro Lamon said he had not much experience in hogs had not kept one for 30 years. bought one for 6 dollars fed him a long time, got out of the style every day when he killed him he weighed 75 lbs a reason back. had 12 setting hens fed them meal more in a [illegible] one would die then another finally they all died. Has spent of what little experience he had was not favorable to pork & poultry

of the town. The progress of mankind continued to spread over the world in manners and customs although a New York divine had said in his book that all the arts & sciences were of the past, that there is nothing new under the sun. The Declaimer compared the present with the past, mentioned the different ages. The golden &c That now was the age of rail roads & electricity. To Babylon the makers of stone brass but no mention of rail roads nor any of those walled cities in Solomon's time where he sat surrounded with his court of splendor, The Persian court was mentioned with China walled in. Rome the center of civilisation & Greece were described That those Roman roads so substantial built were still in existance. That ages to come would find buried in our ruins tracks of a rail road, that the ancients never had electricity nor rail roads and were not ahead of us notwithstanding the New York divines assertion, that the rail road exerted a great influence in the welfare of mankind and that civilisation would not to day be walled in. Bro Sexton mention of Pliny, Bellamy & Donnelly work, Atlanta. Bro Sexton being called upon said as Bro the magic Croning had gone over the subject so thorough that he should be excused. Bro Beery had nothing to say only he should live to see it come. Bro Turner said he wanted a rail road and if it was built he wanted it to keep in the middle of the road, he thought it would be a great benefit and he voted for it. That there had been a great improvement in the last 40 years that a rail road would be a great contrast in getting around. The only hope was in having manufactories, if a rail road was built factories would spring up how much we needed a grain building stores would be built advantageous to the town. Sister Bushing said that a rail road would get us to Boston so easy it would improve the town intellectually people would come and business would be good. Bro Brook pleaded excuse for not speaking the press of [illegible]

Bro Stanley said he was a new member and wanted to be more acquainted should therefore be excused Sister Berry Sister said she was not prepared also wished to be excused Sister Sexton had a cold and desired to listen. Sister Tanner visited to have a ball rod. The Exc read a short paper The Grange closed in the 2d degree and the candidates who had taken the 2 degrees now retired and the Grange opened in the 4th. The Overseer reported of the trip to the Brooklyn fair that all had a good time that they collected 26 dollars and the cost was 25 dollars, voted that the one dollar gained be spent for a light for the overseer discussions followed relative to the best lighting of the hall, the whole matter was left in the hands of the Ex Committee to report at next meeting to consult with the managers of the hall in relation to furnishing lamps. In relation to the time that a member was liable for dues when he became a member. it was voted that 40 cts a month be the sum due from member, commencing on and after the 1st day of the month that they become a member. Pomona night was selected on Oct 27th. A committee of ladies was appointed, to select 6 the lecture provide an entertainment for next meeting Sister Berry Sexton Tanner & Foster, The Sec was instructed to notify candidates the time for their initiation the 1st Thursday for the month for candidates to take the 1st & 2d degrees and the 2d Thursday of the month for candidates who take the 3d & 4th degrees —Grange closed in the usual form at 11.20 P M

Peregrine Cradle the first cradle that rock't a boy in New England. John Endicotts chair allusion was made to the tea destroyed, And the stories that were told as they sat around the large fire place smoking their pipes as the good housewife plied the spinning wheel & reel, the the tallow dip that was placed in the sconce, to light the room the corn that golden harvest the old clock that sounded the time for the boys to go to bed. The family devotions were pictured as the bells rang out & rung in Sister Foster read a stirring verse

praying, farmer Jones & Gray were the characters
the former did too much praying in raising his corn
neglected his hoe but the latter mixed his prayers with his
hoeing that toiling was required let your prayers
be at night & morn. pray between the rows that a
mighty hoe will not raise corn that you must hoe
as well as pray. Sister Letham read a beautiful tribute
to Columbia the first and fairest of gems. here reference
was to Columbus was portrayed. allusion was made
to the landing of the Pilgrims at Plymouth, that
Columbia with the aid of Washington drove the tyrant
from the land Columbia wore a crown of stars with
her 50 millions; ending with a beautiful apostrophe to
Columbia. whilst sister Foster played at the piano the
singers of the Grange sang Columbia the gem of the ocean
Sister Dawn read Columbus showing his misfortunes how he
succeeded in life through reverses. Sister Sexton read why
women have no time. Men do only of business hours.
that women have more work than men, that women who
have no time have no system. their time is ceaseless
interruption, they do not stick to one thing. they do not
resolve to keep at work, attend to more than they can
achieve. will attend 2 hours to a caller when they might ask
to be excused that they attend too long calls, that they write too
long letters, superfluous letters, try to combine the social with
the practical was delineated with illustrations. Cannot change
from one work to another by useing the time between. Sister Shatch
read a paper called Scandal the scene is laid in a
country village called Battenat Villoge in which one
Salter is the victim. Mrs Smith tea party the nursery of
the Scandal is described also Salter leaving town conjectures
are made as to his departure and his absence his arrival home
and scenes that took place the surmises of these people
the truth is finally told and an admonition from Salter closes
the scene. Sister Brewster read an article called the

London Bee Store describes a purchased hive of bees placed near a window for them to look out. The window is opened for the bees to go & come. The sound of the yell of a cat is heard rolling in agony from the pain of the sting of the bees. Mrs B to help the cat is stung. A police man is called to the scene he is stung, he strikes the hive. The people who witness the affray are stung. The cry of fire is raised. The fireman is stung. The hose in one hand and stung in the other. Meeting of Satuit Grange Eggs Hall Norwell Nov 17th

Grange opened in usual form at 8,30 P.M. 37 members present Worthy Master Griggs in the chair and officers in their respective places. Minutes of last meeting read & approved. Mattie W Torrey petitioned for membership. Committee on investigation selected, were Sister Lehan & Robbins & Bro Lake. Communication from the State Grange was read relating to the delegates attendance to the 20th annual session to be held at Springfield. The By Laws were taken up for revision. Voted to have the By Laws printed, Voted to procure 25 Grange badges. The Executive Committee were requested to procure 20 white and 10 black balls for balloting such as are generally used. The Lecturer altered his question relative to the roads, making it thus, How can we best improve our roads. The Lecturer remarked that other towns used the roads of Norwell a great deal, whereas Norwell used their roads but little, and these towns should bear some of the road expenses of Norwell. The Lecturer called on Sister Towne who entertained the Grange by reading Holmes humorous poem The Broomstick Train. Bro Foster being called upon said he agreed with the Lecturer he had lately seen a county commissioner who was on his way to Brockton to a convention of commissioners to see what the State would do towards bearing the road expenses. Overseer said he was not prepared but afterwards said he thought that what had been said that the cost of moving a ton was 60 cts per mile, was too high and that men had not changed they would sit down when the employer was absent, now days, as much as in former years. Bro Damon said he was not feeling well and should not say much but thought like the Lecturer the time would come when we would have good roads and what the Lecturer had said about towns using Norwell roads would apply to Scituate as Scituate roads were much used by adjoining towns. When he was a Surveyor he did not have as much money for the same road as they do now days. The Lecturer said he had read that it was estimated that it cost 60 cts a mile to move a ton on our roads if this is the cost can it be lessened. Bro Brook answered questions propounded him by the Lecturer. Worthy Master spoke in relation to good and bad roads relating a story to illustrate his point. A recess was

declared during which the Ladies met to prepare for the Ladies evening Dec 1st. They chose their officers as follows. Sister Cushing as Master; Sister Sexton Overseer; Sister Towne Secretary, Sister Foster Lecturer, Sister Merritt Chaplain; Sister Turner Steward; Sister Lehan Assistant Steward; Sister Smith Gate Keeper; The other offices having the present incumbents.
Sister Cushing being called upon to state in relation to the intended meeting, said that the Ladies desired to attend to their own business Without ~~molestation~~ interference. Grange closed 10,30 PM.

The Deputy was present and inspected the Grange. After recess the Ladies programme was continued. As a surprise to the officers the regalia which has long been needed was given to each officer.
Entertainment was furnished by the Lecturer. Sister Robbins rendering an instrumental selection. Sister Towne rendering a recitation entitled "The Miners". Bro Turner was called upon & made appropriate remarks in regard to the Grange. Deputy Bro Cushman addressed the Grange explaining the manner in which the Deputy should be received as a guest, That in receiving guests the committee should be the same as the guests in relation to the sex, going at some length he described the manner of procedure in admitting guests. The Deputy retired in order to show the manner of admission. Bro Foster was selected by the Worthy Master to receive The Deputy. Grange closed in the 4th degree and opened in the 3d degree and John Whalen V B & Loring were initiated in the 3d degree. The candidates retired. The Grange closed in the 3d degree

opened in the 4th degree. Deputy Bro. Cushman instructed the members in the Harvest March accompaning the 3d degree. He had 4 Ladies with partners each taken a sheaf. he showed them the manner of marching, the way the candidates should fall in, The march took place with fine effect the candidates joining, ending with the sheaves being given to Ceres. The Grange being in the 4th degree the same candidates were initiated in the 4th Degree. The Deputy said he was taken by surprise at finding such a Grange. so much improvement had been made since he was here last. that there were a few things to speak about, that the Deputy was the only source for the State Grange to know how the Granges were doing, that his criticism was for the Grange's good. Each officer was requested to ask questions for information when his office was mentioned. He spoke of the Grange doing away with the Manuel, He made mention of the various signs, questioning the Officers in regard to their duties.
On Motion of the Lecturer a vote of thanks was passed to the Ladies for the successful meeting held under their charge. A committee were appointed consisting of bro Foster & Turner to report at next meeting resolutions of approval. A ballot was taken on the petition of Mattie W. Torrey who was rejected as a candidate for initiation. Bro Turner thought there was too much ceremony in the Grange, that it ought to be boiled down one half, The Deputy thought otherwise, that the Grange comprised all classes, that the younger officers should commit their parts to memory.
Remark were made by Bro Turner. the Worthy Master, & Deputy Bro Cushman in reference to parties who applied for admission, when the Grange closed at 12 P.M.

Committee on investigation of Florence B Fillmore and Henry S Cornell asked for further time before reporting. Joseph C Otis of Norwell petitioned for membership. The committee on investigation were Brother Brooks Whalen and Sexton. Mr & Mrs A E Low & Harry F Cross were suspended for non payment of dues. Past Master Damon now installed the newly elected officers for the ensuing year, going through the various forms requisite to that duty. After the Sec read a communication from the State Grange that he approved our By Laws.

which Brother Damon was called upon by when he said that the Grange had done exceedingly well, was very prospering, the work was as well done as in the State Grange. and hoped the Grange would continue on in a prosperous manner, The Worthy Master thank the Grange for the position they had placed him as Master, hoped the Officers would take their parts verbally as much as they could, The Lecturer wished for the patrons to make remarks, that he should like a course of readings; at our next meeting it would be on Agr. once a month from the Authors or suggestions from the Grange, a dialogue a drama, each one select a article or a paragraph on Agr at our next meeting The methods of conducting the meetings in matter of subjects, and means of making them successful were discussed. Bro Damon thought a committee of 10 should be appointed for the purpose, The Lecturer thought all ought to be called up Bro Berry the Overseer thought that a committee of 2 would be suitable for the purpose, Bro Varney that in so doing the Lecturer business was taken away from him. The Overseer differed & thought otherwise, The Master thought the Lecturers plan the best, The Overseer and Lecturer further discussed the subject when the Grange closed at 1030 PM

Grange opened at 830 PM, 38 members present, Worthy Master Griggs in the Chair. Pomona not present. Past Master Damon acted as Overseer until the arrival of Bro Berry. Minutes of last meeting read and approved. The committees of investigation upon the petition of S C Otis, Florence B Kilmore, and Henry V Corthell, reported favorably to their request. The Grange proceeded to ballot for S C Otis after some 3 ballots taken. Bro Damon & Hersey spoke in relation to black-balling candidates. The importance of the committee of investigation in recommending candidates. Bro Varney also spoke upon the subject. Owing to dissafction to the new ballot box, upon motion the old ballot box was now used, and a ballot was taken for S C Otis who was balloted favorably for initiation. A ballot was taken for Henry V Corthell which was favorable also a ballot for Florence B Kilmore favorable for her initiation. Bro Robbins motion for a committee to furnish an entertainment before the time of his entertainment was not entertained. A letter was read from Sister Cushing resigning the

office of Pomona, Her resignation was accepted. An election was ordered resulting in the choice of Sister Berry as Pomona. The vote was as follows, Number of votes 31 Sister Turner 1 Sister Briggs 2, Sister Lehart 2 Brother 3. Sister Sparrell 4 and Sister Berry 18 who was installed in the office of Pomona by Past Master Vannon. The Grange now proceeded under the charge of the Lecturer Agr being the theme. Bro Sparrell and Whaten desired to be excused. Dr Little asked to be excused as he was called so had come unprepared. Past Master Vannon spoke on the Future of Agr. That at present Agr was not paying, that the future looked bright showing statement of the consumption per capita of cereals of the decrease of acreage in cultivation of the increase of population in the cities the decrease of the country towns, that this comparison made the consumer increase and the producer decrease thereby hastening the dawn of the golden era of Agr, that economy should be used in the production, that certain products should be diminished where an excess is produced, that legislation should be in the interest of the farmer. Sister Young read an original humorous poem describing 40 farmers assembled in Norwell town surrounded by vegetables of the cereals of the attempt to name them: their social dispute that arose between the President & Sec, them all were described as engaging in the promiscuous scattering of the vegetables. Of the hits that were made ending in the name of Satirit Grange Society, Bro Stanley & Sister Berry were called upon but desired to be excused. Bro Turner said it was easier to say excused and unprepared but like the old farmer he had take the weather as it came along, that the object of the Grange was to help the farmer, that farming was a pleasure, that he should like the farmer to make more money, thought that the good time was coming but had not arrived relating an anecdote to illustrate his point. He did not like to call the dark side of farming, he like the bright side if he felt so like the man & his wife when the latter said she could not breathe, her husband advised her not to try if he was so he would not try. Bro Crossing the Lecturer spoke illustrating his point with an anecdote of a lady out west. Sister Crossing read on muddy walks, the methods of fencing muddy walks, the ways of making them the muddy barn yard was described, the boots from the barn yard to the house as is pictured Sister Sparrell being called upon asked to be excused. Past Master Hersey, being called upon asked to be excused as the evening programme had been planned he did not wish to intrude and he had a better excuse

than the Dr as he had been away since sunrise The subject of Agr is a good one He like the essay to night, he wish to add that the good time was comming different from the essayest, that the farmers of New England were improving more than any part of the United States that the brain was to help the hands. The time had come when the farmer can make the farm, the man with the brain can go ahead of the man with the muscle that man with the garden have made wealth with their Brain not with their muscle. That the farms of New England will be ahead of any in the United States. Be determined that Labor shall be spent in the best manner, that your crops shall be on land that is adapted for that crop not waste our strength on lands unsuitable. exchange ideas as each have different, hold fast to those that are good better farmers than last year, a constant growth of knowledge the questions of to day excel those of the past. The important question of to day is, shall the Government own the Rail Roads. Bro Vorrey read an amusing article on Poultry Fanciers. Ludicrous cures were recommended for the diseases of fowls, that care should be taken & no call would be taken for remedies Sister Hatch and Northey asked to be excused the latter had left her manuscript at home. Bro Farmer spoke of the hen as a song bird whose lay was the egg. Bro N S Farmer read a paper in which he described Danaet Websters orchard of to day the amount of apples raised that cattle running it had march towards its improvement that Mr Sampsons peach trees did not succeed whilst Mr Richards did Bro Berry the Overseer being called upon asked to be excused as likewise did Bro Walter Spaven who left his notes at home. The Lecturer gave notice that the subject for the next meeting would be 'Shall emigration be prohibited. The Lecturer appointed the following in the affirmative Bro Foster Little & Stanley: negative. Meeting of Saint Grange Foggs Hall Norwell Jan 26th 1893

Grange opened at 830. 33 members present. Worthy Master Griggs in the Chair Ceres & Flora not present. Minutes of last meeting read and approved Edith W Turner, William D Turner & Andrew J Litchfield of Norwell petitioned for membership, committee on investigation were Bro William L Cushing Convey & Dr Little. Bro Sexton spoke of the method taken in balloting at the last meeting in which he took grounds against, giving his reasons for so doing. Worthy Master explained the balloting that took place at the last meeting. Bro Berry, Convey & Sexton spoke in relation to the balloting Bro Foster spoke of the different ways that members voted, questioned the methods that transacted in balloting for the candidates The Worthy Master further showed the proceedings of the last meeting Bro Sexton having mentioned of Bro Damon in connection with the last meeting. the latter replied that the 2 ballots were not legal that 2 ballots were taken in Lodges where he had been when a black ball was cast on the 1st ballot, mentioning a case where one had been black balled at a meeting, of the personal feeling against the person, that he thought that feeling was raised against the person. that the box we had recently had been used in many societies, Bro Turner spoke of his knowledge of the meeting of the trouble with the ballot box reminding him of the fellow that went to feed an elephant with a bundle of hay, he came back with the hay and said he could find no place to feed him. as with the ballot box, so many ballots were cast there was no knowledge of the vote. that there was no objection in our town meetings when a ballot was taken, to take another, The Lecturer said by the rules of the order The Master had a right to call for ballots that the ballot box was used in all of meetings and was satisfactory. On motion of Bro Foster the Grange voted to purchase a new ballot box. The Grange closed in the 4th degree and opened in the 1st for the Lady assistant and assistant to practice in their department. The Grange closed in the 1st degree and opened in the 4th. The Lecture now took charge making appropriate remarks that we must use Charity & Fidelity in what we undertake. He called upon Bro Foster of the negative side of the question Shall Emigration be prohibited, who said that he had not time to come prepared mention how much we are indebted to emigration that our country was discovered by a foreigner of a class so despised who went through the hardship of war and fought for a free press and labor for the free protection of education. Showing our descent

From Foreigners. of the industry drawn from the Land that it seemed ridiculous to prohibit their coming here, of their working for low wages in their native Land but not so here, how they rise in the world after coming here spoke of Andrew Jackson his foreign parentage. the assistance Foreigners gave us in the revolution and in our late war of the aid given us in our rail roads. that our people want to use their brain, the Foreigners their hands, he further showed the help of Foreigners to this county citing the case of Mr Norwell the debt the ~~~~ inhabitants of Norwell owe to that gentleman. Sister Young on the Affirmative side said of the danger threatened by emigration that they should be limited 3 years the paupers that were transported to our shores were shown by facts, of the decrease in England of the number of Ticket of Leave persons to what there was formerly, credited them to the United States. That if the emigration Kept on a large per ct would be paupers The Jews were pictured out as the lower classes uneducated who took part in our government and making the laws, Dr Little followed on the affirmative, acknowledge that our County was discovered by foreigners as he said it had to be so as new country but the 1st Foreigners were a good class different from present emigration coming as they do now from a land of tyranny they have not the idea of our free County thinking that a free country means free access to every thing. showing the anarchist of Chicago as an irresponsible class who have no idea of a free government, mentioned the exclusion of the Chinese did not consider them any worse than the present emigration stop the present emigration and digest the raw material on hand, for our present safety in case of the cholera for it would be very difficult for us to stop that scourge as the germs would be in our midst and for that reason alone emigration should be restricted, Bro Anderson Bro Anderson had lately heard of this subject to be discussed and so was unprepared thought it well enough to let them come if they were naturalized, But keep out criminals and paupers, he spoke of the Foreigner taking up homes in the west. That the Laws should be looked after and the laboring class be welcome. The Sec read a paper on the negative side Bro Sexton was called who took the negative side in which he said the question had no end to it that emigration must take place for our prosperity that in the garden of Eden there was emigration illustrating his

remarks by an anecdote of the Yankees exclusive blessing and his Irishmen's reply, that Emigration tended to the prosperity of the country. The original states delegates laws were shown, that the Constitution was made and never altered. 4 millions of people then 62 millions now that emigration will continue that increase in the future Showing the patriotism of the emigration of the generals in the war citing Gen Shields of the Mexican and the late war having been senator of 2 different states which no other man ever held such offices. mentioning the rascals that emigrate to Canada. That education was the means to make our emigration safe. The Lecturer thanked the committee for the interest they had taken. That the question was one of importance that the law was intended for a short time in order to educate the present emigrants in our land. Bro Turner expressed his views by reading from the Youths Companion of the aid given paupers in Europe by societies who furnished them with money to get to the U States. That to stop paupers & criminals from coming to this country was his idea, of the better class of foreigner that came here years ago, relating an anecdote of the Irishman & the dog in which the former complained of the stones of the city being tied down as he reached for one to throw at the caller. did not believe in in Strict Emigration occupying a neutral ground The Lecturer spoke of the aid Canada had given to emigration of their finally getting into our country. A recess was declared afterwards the Grange came to order. The Lecturer gave out the question for debate at our next meeting would be Which is the better manager the man or the woman Committee Sister Geo Cushing Sister Hatch Lehan Sister Walter Sparrell. Worthy Kinner & Dr Little were selected. The Worthy Master present the new ballot box to the Grange A vote of thanks was passed to the donor for his gift. The Worthy master now gave the charge of the meeting up to the worthy Lecturer to carry out his programme he called upon the Committee Bro Chas W Sparrell and sister Hatch who wishe to be excused. Bro Robbins said it was a difficult subject and he calculated to bring a song but he had left it at home but would bring it next time. Bro Whalen said he would be a traitor to his race if he did not express his views that man is the best manager that some women think that they are capable of managing everything, that a man has no right to attend to anything without their permit. Must have the larger share and the man under such circumstanc is a henpecked husband said Adam was created 1st a man that man was the most capable in management. The Lecturer spoke of Adam as being 1st that woman was his, Best half better half that with a married man woman was his better ha

that where women had been, they excelled. Esther who Travelled 1500 miles in Leading the Israelites from bondage Queen Dido who founded an empire were descrived. That women had commanded in the field the same as man as Joan of Arc. in busines woman has taken her place alongside of man except salaries. See Frank Leslies bresiness that went down from and brought up by his widows management. In one city 36 pulpits are filled by women. Of woman Dr of medicine. in Michigan has taken 4 degrees, of 40 who are holding their in that profession that woman have a head of intellect and quick perception and are ahead of man It is a question whether an educated women can get a mate her equal as men are passing their time in sports neglecting their education. The Lecturer gave out the subject for Feb 16th What crop is best to grow in Plymouth Co. Committee appointed Bro Berry, Farmer, Sexton, Chas Sparrell. Bro Sexton thought the subject was too much to decide in one night. The Lecturer said the question could be kept open. Bro Sexton did not feel like giving his opinion and thought a very few could give their opinion. The Lecturer further spoke upon the Secrets of Farmers, that they now exchange their ideas. Bro Farmer spoke of the object of the Grange was to exchange ideas that each should give his ideas to another hoped that all would give their opinions for their neighbors benefit. He spoke of the question of the evening the sort of business to be done. Of the boy who went a fishing did not catch anything but expected to when he got home. That in many cases the woman is the best manageon citing a case where a man started with a load of hay and a lighted pipe, his wife advised him to stop smoking he heeded not her advice, when he came back he had only the iron left which was in a bag. Sometimes it was the man and sometimes it was the woman that was the best manager.

Meeting of Satrit Grange Fogg's Hall Norwell Feb 16th 1893

Grange opened at 850 PM 28 members present Worthy Master Briggs in the chair Bro Foster as Overseer till arrival of Bro Berry Flora absent Minutes of last meeting read and approved The Committee Bro S Warren Foster, C L Damon & H A Turner appointed to draft resolutions upon the death of Bro Henry T Jenkins reported the following resolutions which were passed and the Sec was instructed to forward the same to Sister Jenkins, his widow and also to place them upon the records.

Whereas, it has pleased the Supreme Being in his divine will, to take from us our honored and beloved brother Henry T Jenkins, and in view of the loss which we have sustained, and the still heavier loss by those who were nearest and dearest to him.

Therefore resolved, that it is but a just tribute to say, that his affable manner, his principle of character, which constitute the elements that make the man, were centered in him, which we shall always cherish, and those qualities of heart that endeared him to the members of Satrit Grange; the memory of which will never fade from the Eden of our mind.

Resolved, that we tender our heartfelt sympathy to our bereaved sister, his widow, in this, her hour of affliction.

Resolved, that this expression of sympathy and sorrow, be forwarded to our bereaved sister.

Resolved that these resolutions be placed upon the records of this Grange.

Mrs Lettie W Hammond of Norwell petitioned for membership Committee on investigation were Bro H S Turner, Toney & Sister Geo Cushing Bill of Litchfield & Curtis Laid over Bro Cowin Lecturer asked permission of the Grange for the use of the piano Grant to the Chevaliers on 25th of Feb Bro Sexton did not wish for them to have it thought it not advisable, The Lecturer spoke of the favors received from that body. Bro Turner said as we used the Chevaliers furniture we ought to let them have have the piano The motion carried to let the Chevaliers have the use of the piano on Feb 25th The Worthy Lecturer took up the Subject What is the best crop to raise in Plymouth County. The Lecturer said if any member had any suggestion to make or read at future meetings he would like their cooperation very much to help him out. He called upon the committee commencing with the Worthy Overseer, Bro Berry wished for a little time as he had arrived a little fatigued, Bro Turner said he expected to hear Bro Berry when he got some hints did not know

what was the best crop. Thought all crops, not any particular one. Illustrating by anecdote of an Old man of 70 who had married and his little dear. Thought corn a good crop with the Soldier. Potatoes the best crop not always sure. knew of an instance where a man sold 100 bushels for 1 dollar per bushel, the next year 50. the next year could not give them away. have a number of crops and if one fails you do not. Small crops in gardens are most profitable than large farms, can learn from failure as well a success. get hints from each other, that the Grange was a help citing 2 Irishman one of whom fell into a hole of the one advised who did not fall. and he had found the same in farming. of setting pear trees and spoiling his garden afterwards was told by Bro Hersey that garden should be kept free from trees &c, obtained his advice that a com would attack him after he had been attacked Bro Sexton said he did not believe any crop would do to be raised right along for years. no special crop. that we must unite together and keep from the middle men go right to the consumer, That the middle men live easy and make the money, That the farmers work more hours than any other class, picture the western mortgages, that we must the Legislature in favor of the farmers, that grain should not be tied up, That the farmers take too little interest in politics. Bro Berry said no person can tell. each farmer must decide. That all crops can be raised profitable, The farmer must understand the way to sell. Those who find fault do not understand how to manage, This should be the market garden for Boston as Long Island is for New York where they have cars to carry their produce. The artificial fertilizers can be furnished, The middle have the capital with the bad bills and work as many hours as the farmer, That we do not raise our crops low enough to get a profit Bro W. L. Cushing said we must not depend on one crop have many at low cost. Bro C. F. Worthey said there was no one crop, take the various crops sometimes one would do and then another. The Secretary read a paper in which he recommend potatoes as a good crop The Lecturer said in a question like this all are diversely he called on Bro Foster who said he was in hopes to hear from the farmers if they could not instruct him he certainly could not them, he thought hay was the best crop, That we have meadows that cart sand on them one could have hay for years with little cost thought all crops were good this year as crops were short by the drouth. The Lecturer called on Bro Foster who desired to be excused last Master Parmen did not expect to be called upon would take into farming expected to learn from the farmers present. He had failed in farming on account of [illegible] and was for fertilizers than this ca

came to the great trouble was the cost of the fertilizer and by making long days one might succeed that he had done best in raising cows what he used to sell for 50/- to 100 now will only fetch from 16 to 18. What he wanted to know was what to do. Bro Vowey having mentioned about coming to the point Bro Turner said it reminded him of a barn being burnt by a person mad from a gun fired at an owl on the barn and one saying what a pity, whilst a weak person enquired if the owl was hurt. That we are at a loss to know what to go into, had concluded to go into poultry business this he considered the best business we should go into the business gradually of his mother when she wished to do a thing she would do it but failed in one instance when she drowned 2 burnt 2 cats, 2 of which afterwards returned though she did not return in Bro Foster's case, that woman do help on a farm, that woman do know of a woman that was pleased to hear an earthquake as she knew Jonah could not blame her in that case. Bro Sexton spoke about Bro Berry reference to the middle men. he differed he showed the living of the middle their fine physique as compared to the farmer of the profit gained by the middle men when one went a fishing to watch him that he had watched Bro Berry's farming gave his experience and methods of raising potatoes where they had not succeeded, of his raising potatoes above and his loss in comparison to Bro Berry he further asked the question if any one knew of one succeeding in farming commencing on nothing thought that fancy did not pay Bro Turner did not like Bro Sextons remarks as it was so discouraging as he had 2 boys whom farming was their business Sister Cushing did not like to have her husband hear such remarks so unfavorable, as he came down on purpose to hear the discussion. Bro Brooks said we should raise a variety of crops each should have his lands favorable for his crops, the great drawback was the cost of fertilizers. Bro Berry replied to Bro Sexton relating to the middlemen that farmers back more living as well as the middlemen, that as persons are situated in their crops so they succeed Bro Damon agreed with Bro Sexton told of an old fisherman who had ploughed the sea for many years that 7 middle men had amassed their fortunes and retired whilst he was worth nothing that he would like for a young man buy a farm for 3,000 and see how he came out. Bro Turner spoke on the bright side of farming mentioning the days when the pianos were not in the farmers houses illustrating the Irishmen and the cattle. Bro Damon related of a young man who had 60 acres how he made farming pay at the end of the year he had $ dollars and a rich mother had found him in clothes. Bro Henry Cotthell wish to be excused Bro Sexton said whenever you raise a crop where there is a failure it invures to your benefit Bro Berry differed said look to other trades not 1 in 10 make a success.

Bro Sexton said if one got all the profit farming might pay. Bro Turner asked how could we do without the middle men explained his ways of marketing believed in middle men. Bro Sexton said it was a problem how to do without the middle men giving his reasons why he did not like the ways the farmers done in marketing their produce. Bro Beaney said that in many case he got better prices from the middle men than from the consumer, that good articles commanded good prices from the middlemen Bro Sexton said the farmers should sell to the consumer. Bro Damon said cooperation was the panacea. Bro Foster asked the question who to address on the good of the order the Worthy Master or the Lecturer the latter said the members had diverged on to the middle men from the subject, that the question was which are the articles that you recommend that the Grange years ago took up the question to do away with the middle men, that no class have had so much legislation as the farmer stating the legislation that had been done for them. That the farm that had been carried on intelligently has been successful that the farmer has got to take his chances and taking all things in consideration the farm pays. Bro Sexton said that agr has been in the hands of parlig advocates who were not active farmers. Bro Damon asked if a man could raise 600 dolls on his farm. Bro Turner wished Bro Sexton would take a rose colored view of farming that farmers should keep an account of their receipts and what they pay out, of a fellow when he hear of a bank failure ran home to see if he had any bills on the bank found he had none on that he any other. Sister Cushing asked questions of Bro Damon to the earning of 600 dolls in a case of a woman with 5 children who lived on 6 doll a week that the farmer of to day are not the same as years gone by citing the difference now and the in dress the fashions &c that the present does not compare with the past. Bro Turner said that things are better who would exchange the present for the past. Sister Hatch said the farmer's wives worked the hardest of any persons. The Lecturer said that he desired the subject to be continued. The Worthy Master said he hoped the members would keep to the subject and not wander onto other subjects, That he wished to drill the officers and use ½ hour for that purpose. The Lecturer said the members had strayed from the Subject. Grange closed 10,50 PM.

The Grange was opened in the 4th degree, 19 members present. Offices of Sec. Flora and Ceres vacant. Instructions in degree work was given the officers by the Worthy Master. Remarks were made for the good of the order by the Worthy Lecturer. He thought members in discussing topics given out should confine themselves to the matter in hand and nothing else. He thought farmers should conduct their farm in a business like manner. Was disappointed in the discussion at the last meeting. He thought the farmers kept too closely to methods in vogue in the time of their fathers and grandfathers. they should be more progressive. Bro Henry Turner spoke for the benefit of the order at the request of the Worthy Lecturer.
Bro Foster spoke on the grain crops. Bro Berry spoke about the best crop to grow in Plymouth Co and thought the Cranberry crop, as a single crop, the most profitable The topic for discussion for the 3d Thursday in March is. Would it be advisable to establish a creamery in Norwell.

The Worthy Master

was opposed to lowering the price stating his reasons citing the
prices of the pianos at the Town Hall in comparison Bro Sparrell
& Foster continued on prop con on the subject Bro H S Turner
Chair there had been a complaint by parties of the high prices
Sister Berton enquired where one could hire less? Bro Foster said
at Marshfield Hills they charged 2.50 per night Bro Sparrell &
H S Turner further spoke in favor of reduction Bro H Turner thought
where parties had the piano 2 a number of nights a reduction
should be made Sister Mary R Turner asked if the Ladies Union
could found fault with the rent of the pianos as they had been
mentioned as having paid rent for the pianos. Voted to reduce the
rent of the pianos. The price of letting was discussed Sister
Cushing thought 1 dollar per night was sufficient Bro Sexton
thought when we had paid for the pianos we could afford
to let less. Bro Turner thought 1 dollar per night better than 1.50
Bro Sexton Secretary spoke about the care of the pianos not
being looked. The terms of letting were further discussed by
Cushing Sparrell & Turner. Sister Cushing thought the question
ought to stand like a full meeting. Sister Mary R Turner spoke
of the Ladies Union as being friendly to the Grange. Sister
Cushing spoke about a Strawberry festival. The matter of holding
our meetings once a fortnight was brought up & discussed by
Bro Sexton Sister Cushing Bro H S Turner Master The worthy Overseer
wished to be excused from his office. Bro Turner thought more a
committee would do to hold the meetings The Worthy Master thought the
1st & 3d Thursdays Sister Cushing enquired about the fair committee

Bro Croning as assistant Steward Minutes of last meeting read and approved The Committee on the Marshfield Agr'l Hort fair reported through Bro Berry that the fair was a success that the Grange exhibit had been awarded a Diploma & $10.00. Moved & voted thanks to the committee for the work done in getting up the exhibit On bills and accounts Bro H. S Turner reported that he had received $6.00 for rent of piano and had paid $3.35 for tuning leaving 4.65 to the Grange Bro Griggs spoke of the delinquent members Bro Croning wished to hear from assistant Secy relative to the matter. Sister Sexton said that 25 members had not paid varying from 1 to 6 years. She read the names of the delinquents Bro Griggs moved that the be notified once more by the Secy & the 1st of Oct then the Grange take action Bro Blivens moved that a committee be appointed to see the delinquents. Bro Croning thought that those who were so much in arrears should not be held as members as those who attended had to pay their assessments thought it high time this matter was stopt Bro

Griggs motion was carried Bro Corning thought a special committee should be appointed to see the proprietors of the Hall about lighting &c. Bro Berry said Bro Torrey had seen them. On motion of Bro Griggs, Bro Corning was appointed a committee to confer with the owners of the Hall about lighting also our debt to report at next meeting Sister C H Northey thought it about time to have a supper to make up the members on her motion it was voted to have a supper at our next meeting Oct 4th Sister Northey made a motion that Ceres & Pomona have their festivities together. Bro Corning said these meetings of Ceres & Pomona should come through the proper channel. A recess was declared The Grange came to order. Sister C H Northey was appointed Pomona pro tem in place of Sister Mary R Turner who was ill. The Worthy Lecturer was requested to appoint a committee on the supper, she replied that she should hold all the ladies present as said committee, The Lecty read a letter from Elisabeth B Cushman Pomona of the State Grange addressed to Pomona of our Grange The Master delivered the Grange up to the Lecturer saying that some of the brothers agreed to speak on subjects beneficial to the Grange Bro Corning being called upon said they had put the cart before the horse as Bro Brooks was the one to look to Bro Brooks said bro Corning was mistaken, Bro Corning said when he was young, one would read and others would remember and so would speak from memory Bro Brooks read a paper prefacing his remarks stating his joining the Grange his enjoyment at the meeting the discussions on farming matter, the thoughts expressed his paper was interesting, The fifth was composed of

classes of men that the farmer fed them all
Bro Crowing said Bro Brook had well filled
the programme he spoke of the information one
gathers in the Grange, That at the fairs they
get persons of note to do the talking in front
of the farmers. That at the Grange one should
tell his failures and success and there impart
information, Bro Griggs thought it was strange
that Bro Crowing should call upon him
he said the Grange was the same as Trade
Unions that the farmer was too positive in his
ideas he spoke of the soil the chemicals & labor
with the farmer to feed that Co operation was beneficial
that it would benefit the farmers of Pownell
Bro Crowing said Bro Brooks said the farmer
fed them all, that Bro Griggs said the chemist
was the one that feeds all. & chemicals made for
the purpose, Bro Crowing said he believed the
farmer would have yet to feed, The Worthy Master
said he was much interested in what had been
said he was glad the meeting had been so interesting
said it was easy to raise the crops but in the
disposal of the crops, the question of transportation
and money was the question of the day, going at
some length upon the great problem of the day
giving extended remarks, showing the causes of our
depression of business of the farmer, Bro Griggs thought
Domestic economy should be the theme of our next meeting
The Worthy Lecturer now gave the meeting up to the
Worthy Master, moved & voted that the time of meeting
of the Grange shall be on the 1st & 3d Thursdays of
each month till ~~the 1st of~~ April 1895. Grange closed 10.30 Pm

antagonistic to Agriculture Bro Howard spoke of
of the success of the Stoughton Grange then in progress
of getting up their printing that we must keep
ourselves before the public that his object was
to get up Granges in neighboring towns
Bro Crowing spoke in favor of neighboring granges
Worthy Master Dimon related his experience
in trying to get up a grange in No Scituate
with no success and he thought the chances
were slim to start a Grange Bro Foster said
this question like all others was that we were
asleep he thought a Grange could be
started in Marshfield that he would do
all he could to further the interest that it
would be beneficial to have neighboring granges
Bro Sexton thought in trying to start the Grange
in No Scituate the right kind of men had not
been selected to start it hence its failure
a recess was declared after which the Grange
came to order Bro Crowing spoke of the
delinquent members he thought we had not
better postpone their cases Bro Sexton motion
was carried that we take action on delinquents
The following were suspended W D Turner Edith Turner

said the thing had been done for this meeting
but as the Deputy was present that they thought that
was enough for this meeting. Article 11th was taken up
and it was voted that the Lecturer appoint a committee of 5
Bro Sexton spoke in favor of the prosecution
he had read much of other granges and had
been much interested in going to the Marshfield Institute
that we needed more neighboring granges of their
advantages. Worthy Master further spoke about the starting of
a grange in Scituate. Bro Berry thought as the Lecturer was
not present we had better defer action. on Committees, the Lec.

appointed the Committee for next meeting, Bro Sister Chaplain assistant Sec & Flora, Bro Crowing regretted that the Meeting had taken such a view of matters relating to forming grange and more so as the Deputy was present and if the proceedings could have been thrown on his project Sister Foster spoke of a Harvest supper as a means to lift us from our dilemma Bro Crowing spoke so few being present that we could not select the committee as well Bro Foster mention the way the Granny post of Marshfield did by aid of outsiders in bringing vegetables & giving them a supper & invitation Sister Ella Worthy made a motion to defer appointing a committee on supper till next meeting Bro Berry thought we had better wait till more members were present, Bro Foster thought we had better chose the committee to night. The Worthy Master thought the B. sisters present be the committee and they select others, sister Worthy Motion not carried Flora thought we had better wait Bro Crowing said so few present we had better wait Bro Foster moved that all members be the committee to carry out the supper the last Meeting in June Bro Berry thought we were not prepared tonight Bro Foster thought the present time to act.
